

CITE Annual Conference

Bernard Avenue Revitalization Kelowna, British Columbia

Streetscape Plan

Typical Road Cross-section

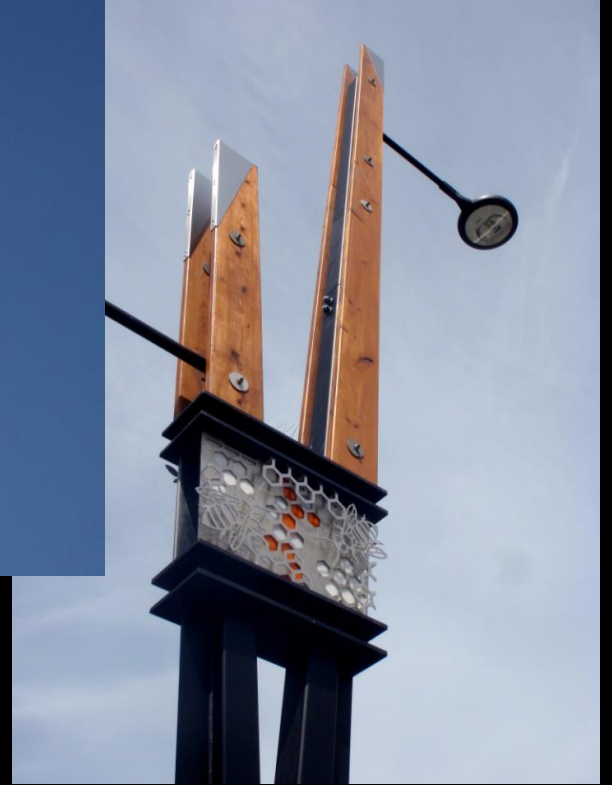

Public Seating

Placemaking Images

Furnishings Zone

Pedestrian Zone

Frontage Zone

Shoreline

Shoreline continues
through to warning strip

Rectangular-shaped bollard
aligns with edge of crosswalk

Tactile warning strip

Each bollard has the
name of the street and
the address range in
conventional text and in
Braille.

Key Components

- a) **Unobstructed pedestrian path**
- b) **Uninterrupted shoreline**
- c) **High-contrast tactile strip**
- d) **High-contrast bollards with Braille street names**
- e) **Bollard alignments with crosswalks**
- f) **Audible signals**
- g) **Conveniently-located audible signal activator buttons**
- h) **High-contrast, tactile crosswalk surfaces**

Thank you!
